## CHAMBER OF COMMERCE

April 27, 2016

Alabama Department of Economic and Community Affairs  
Attn.: Crystal Davis, Recreation and Conservation Programs Manager  
P.O. Box 5690  
Montgomery, AL 36103-5690

Re: South Shelby Chamber of Commerce  
Recreational Trails Program Pre-Application

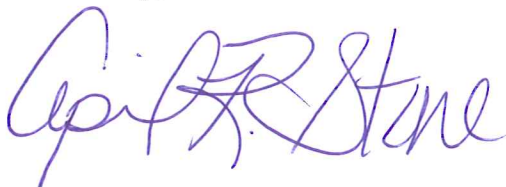

Ms. Davis:

On behalf of the South Shelby Chamber of Commerce, I am pleased to submit the enclosed application for funding consideration under the FY 2016 Recreational Trails Program. The project proposed in this application is requesting funding assistance to build a 5.7 mile diverse use trail from the City of Columbiana to the Shelby Iron Works historic park. The request herein will cover one fourth of the entire length of the 5.7 mile trail.

The trail will be a collaborative project between the South Shelby Chamber of Commerce, the City of Columbiana, the Shelby County Commission, the Historic Shelby Association, and the Greater Shelby County Chamber of Commerce. Therefore, this project is of great importance to a large segment of our Shelby County community.

If you need more information, please contact me at (205) 669-9075. Your consideration is greatly appreciated.

Sincerely,

April Stone  
Executive Director  
South Shelby Chamber of Commerce

FY2016 Recreational Trails Program  
Pre-Application Form  
Deadline: Noon, Tuesday, May 3, 2016

## Applicant Information

Applicant's Name (Organization)	South Shelby Chamber of Commerce		
Street Address	P.O. Box 396		
City	Columbiana	State	AL
Zip Code	35051		
County	Shelby

## Project Narrative

Brief Description of the Project  
(350 characters or less)

The South Shelby Chamber of Commerce is seeking grant assistance to build the third quarter of a 5 mile multi-purpose trail from the City of Columbiana's Arts Council Park, (under development) & Shelby Archive Museum near downtown to the Shelby Iron Works Park in support of the City of Columbiana & the other entities RTP applications.

**1. Describe the degree to which the project's scope and feasibility meet the project area's recreational needs.** (Key Consideration: Does the project appear to be feasible and incorporate a good project design with consideration given to the natural and cultural environment in which the project is located, and appropriate consideration given to needs and benefits?) 10 Points Available

Limit 1,000 Characters

The Chamber has recognized the opportunity to support a major recreational trail project that will provide opportunities for numerous entities.

As stated in the City of Columbiana's application, this trail will provide a valuable link between two parks. The Columbiana Arts Council Park is currently under development and will include an Arts Center, Pavilion, & Plaza as well as outdoor recreation such as a splash pad. From the City, the trail will travel 5.7 miles to the historic Shelby Iron Works park.

The 5.7 mile trail will be 16 feet wide to accommodate hiking, jogging, biking, as well as golf carts and will be an excellent recreational facility for both the City of Columbiana and the southern section of Shelby County.

The Chamber's application to build the trail, approx 1.4 miles, is in conjunction with applications from the City of Columbiana, the Historic Shelby Assoc., and the Greater Shelby County Chamber of Commerce.

**2. Describe the ways in which the project provides for the greatest number of compatible recreational purposes.** (Key Consideration: An important concern is that this project will enhance the quality and quantity of recreational trail opportunities available in the community or region. Maximum points will be given to projects with connectivity to other trails or parks, environmental education and preservation, and economic development opportunities.) 10 Points Available

Limit 1,000 Characters

The proposed multi-purpose trail will accommodate numerous uses in the region which can be used by hikers, runners, bikers, bird watchers and others. In addition to the numerous usages for this trail, the trail will serve as a vital link between the City and southern Shelby County.

The Shelby Iron Works park is currently a popular destination point for locals as well as tourist for regular museum attendance as well as special events, such as car shows, and with the addition of the new Arts Council facility in Columbiana, the area will become even more of a destination point for the region. The City of Calera, which is just a few miles from Columbiana, currently has their own Heart of Dixie RR Museum, which will coordinate nicely with the new facilities and trail facilities in Columbiana & Shelby further promoting the region.

The construction of the proposed trail will address numerous recreational needs in this area as well as providing cultural and educational opportunities.

**3. Describe the ways in which the project provides a new, unique, or more effective means for making trail opportunities available to the public.** (Key Consideration: This criterion includes projects of national, regional, and local demonstration value. The most important concern is whether the grant recipient is committed to trying an approach that is new at the local level. Additional points are awarded for nationwide applicability and statewide or regional value. The applicant must commit to documenting the results of the demonstration.) 10 Points Available

Limit 1,000 Characters

Given that the old railroad bed is a direct link between the City and the Iron Works Park, this project will be a unique opportunity to link these facilities. Once the Columbiana Park is complete, the proposed trail will give residents and visitors multiple opportunities for recreational events making the area a destination point.

The collaborative effort of all the entities involved in this project is a testament to the value being placed on this new trail. The Shelby County Commission will also be a key contributor to the project as they will be providing financial support as well as In-Kind labor during the design and construction of the new trail.

The obvious recreational opportunities along with the historic and educational avenues to be provided through this project make the proposed multi-use trail a highly effective means of making trail opportunities available throughout the region.

**4. Describe the ways in which the project facilitates the access and use of trails by persons with disabilities, older citizens, economically disadvantaged, and other special populations or groups.** (Key Consideration: Whether this project will expand recreation opportunities for special populations with recreation deficiencies.) 10 Points Available

Limit 1,000 Characters

The new trail facilities will give economically disadvantaged individuals an opportunity for recreation as the trail will be free resource available to the public. According to census tract data, the trail area has a population of over 1,300 and a LowMod percentage of 56%, many of which are retired individuals living on limited fixed incomes. The new trail runs directly through this tract and will therefore promote trail access for those economically disadvantaged that currently have no other recreational trail opportunities.

Due to the extended length of the trail, the entities involved in this project cannot afford to pave the trail immediately and make it completely ADA compliant as it would cost over \$1,300,000. However, the proposed construction will be to build the trail as a dense grade surface which will still allow access to persons with disabilities. The future plans, through a phased approach, will be to asphalt the entire trail thereby making it completely ADA accessible.

**5. Describe the ways in which the project creates opportunities for new partnerships between trail users, private interests, and public agencies within the project area.** (Key Consideration: The major concern is that this project is a component of an integrated effort to enhance economic revitalization and community conservation. Maximum points will be given to applicants providing evidence of cooperative efforts with trail user groups and/or multiple public meetings.) 10 Points Available

Limit 1,000 Characters

The proposed link between the City and the Shelby community will not only meet recreation needs but also creates an economic corridor as well. The trail head in the City is close to Columbiana's downtown area thereby providing trail access to numerous businesses, City Hall, Shelby County Courthouse etc. The downtown area has an excellent network of sidewalks so users will have ease of access for pedestrian travel. The support of both the Greater Shelby County & South Shelby Chambers, which are submitting applications of their own for this trail, are evidence of the cooperative efforts and potential economic growth that can be provided through this project.

The trail itself will be an attraction for many enthusiasts given the trail length and supporting facilities. This will bring in new business and economic revitalization for the area. This project is clearly a collaborative effort that will involve trail users, private interests, and multiple public agencies for the benefit of all.

**6. Describe the ways in which the project uses the grant funds to leverage other public or private investments (in the form of services and materials as well as dollars).** (Key Consideration: The major concern is whether actual leveraging is assured or the potential for leveraging is good, outside of any funds committed for the initial grant match. Maximum points will be given for applicants committing double the minimum local match or higher.) 10 Points Available

Limit 1,000 Characters

The Shelby County Commission along with the City of Columbiana are providing in-kind service of their work forces to assist in the development of the trail including engineering design and actual construction of the proposed trail. The County is also spending \$80,000 for acquisition of the rail bed property that is not included the RTP scope. Even so the local match is well above the minimum 20%.

As stated previously, this request will be combined with the City of Columbiana and 2 other entities so that the entire 5.7 mile multi-use trail can be constructed immediately as opposed to having to build the trail in segments over several years.

**7. Describe the degree of commitment to continue operation and maintenance of the project. Include an operation and maintenance plan detailing the amount of money needed to operate and maintain the trail after it is completed and identify who will be responsible for the work.** (Key Consideration: Whether the grant recipient is willing to commit to continue the maintenance and operation of the project and whether the applicant provides a realistic operation and maintenance plan/budget. Maximum points will be awarded to applicants demonstrating innovative funding measures for trail maintenance.) 10 Points Available

Limit 1,000 Characters

The City of Columbiana and the Shelby County Commission will have primary responsibility for maintaining and operating the new trail both of which have an excellent track record of managing facilities as evidenced by the condition of the City parks and all the park facilities throughout Shelby County which include some of the largest parks in Alabama.

The financial resources of Columbiana and Shelby County are more than sufficient to manage the new trail especially given that Shelby is the fastest growing County in the State.

**8. The degree to which community involvement is addressed: i.e., (A) Project idea originated with trail users or a community group that has substantial knowledge, and (B) The private sector (including individual citizens, community groups, or local business enterprises) has participated in the development of the proposed idea and has made commitments of labor, money, or materials to support proposed implementation.** (Key Consideration: The objective is to determine if the project is responding to citizen-identified needs. The priority of the project to users is evidenced by citizen support for the idea. Maximum points will be awarded to applicants demonstrating that the project concept was originally proposed at the grassroots level and, especially, for extensive citizen or private organization involvement in project development and support in project implementation. Maximum points will be awarded to applicants demonstrating extensive involvement and participation from citizens and interest groups during all phases of application development and commitments beyond.) 10 Points Available

Limit 1,000 Characters

A. The Rascal Rail History Trail has been in the planning stages for many years. Local trail users along with the City, County, and local museum volunteers are very excited about the development of this trail and have been very involved in the development of the Recreational Trail Plan. Their input has been used in the development and design of the proposed trail and they will continue a high level of involvement during the implementation of this trail given that several entities will be needed if all segments of these trail applications are successful.

B. The Historic Shelby Association, which operates the Shelby Iron Works Park, is an all-volunteer organization that is a critical component of the success of the Rascal Rail Trail given that they are also involved in applying for these trail funds through a separate application. Likewise, both Chambers discussed herein, are also applying therefore this is truly a Community project.

9. Describe in detail how the trail will be managed. Include discussion on season length, hours of operation, limitations on use, enforcement provisions, and scheduling. 10 Points Available

Limit 1,000 Characters

The City of Columbiana and the Shelby County Commission will be responsible for managing the trail which will be open from sunrise to sunset year round. The City of Columbiana Police Department and Shelby County Sheriff Department will be responsible for the security of the trail.

The following rules will be applied to the trail:

- 1) Use at your own risk
- 2) Use of trail prohibited after operating hours
- 3) Golf carts will be allowed; however no other motorized vehicles will be permitted on the trail.

**10. Identify and describe the service area of the project. Approximately how many people do you propose to serve with this project? Identify other trail resources in the service area by trail type (motorized, non-motorized, multi-use), distance, location in relation to the proposed trail, and ownership.** (Key Consideration: The RTP was created to address trail needs in the urban and rural areas of the state. In order to assess the need for additional trails it is first necessary to identify the quantity and location of existing resources within the service area. It is also necessary to establish a service area – either population or resource based. For example, a population based service area could be a neighborhood, school district, or political jurisdiction whereas, a resource based service area might be defined along a linear greenway, water course, or unique natural/cultural area. However, in both instances, an estimate of the number of beneficiaries should be provided.) 10 Points Available

Limit 1,000 Characters

The nearest trail resource in Columbiana is a walking trail located approximately 2 miles from the proposed site at the Columbiana Sports Complex which includes several ball fields, playgrounds, and picnic/pavilion area. The Columbiana Sports Complex is a joint venture with shared financing between Shelby County and the City of Columbiana.

Other trail facilities exist in other sections of Shelby County; however the Rascal Rail History Trail proposed in this application will be the only one of its kind within reasonable proximity to serve the southern and eastern sections of the County.

According to 2010 census data, there is a population of approximately 12,000 people within a 5 mile radius of the proposed trail. This is the immediate vicinity; however given the length of the proposed trail and other factors mentioned previously, this trail will attract a much larger audience.

**11. Identify the length of time the trail will be maintained and open and available to the public and identify the method to be used to ensure this commitment (deed covenant, deed restriction, etc.).** (Key Consideration: The objective is to utilize RTP funds to the greatest extent possible by ensuring the improvements are maintained and available for public trail use as long as possible. Points will only be awarded to applicants exceeding the minimum required timeframe for a trail development project to remain open to the public. Maximum points will be awarded to applicants electing to maintain the improvements in perpetuity.) 15 Points Available

Limit 1,000 Characters

The entire trail length of over 5 miles will be split in half with the southern section being owned by Shelby County through the purchase of the rail bed from CSX railroad and the upper half being leased by the City of Columbiana from the property owner Alagasco.

The Shelby County half will be owned outright and therefore will remain a recreation facility for perpetuity and so noted on the property deed. The City's half will have to be leased through a long term, 50 year, agreement with Alagasco.

Please see the Rascal Rail History Trail video included with the digital copy of this application for more information. Thank you.

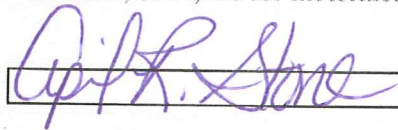

**Note:** Property acquired with RTP funds must remain open to the public in perpetuity. Should the property cease to be open to the public for trail use, the applicant must repay the RTP 80% of the fair market value of the property at the time of the change in use. If the project is located on an easement or on leased land, the minimum timeframe for the easement or lease is 25 years. The project must remain open for public access for the use for which the RTP funds were intended during that time. For development projects on applicant owned property, the project must remain open for public access for the use for which the RTP funds were intended for a minimum of 25 years.

Total Project Cost

Total Funds Requested

**Important Note:** The maximum grant amount by trail type is \$35,000 for non-motorized, single-use trails; \$100,000 for non-motorized, diverse-use trails; \$524,936 for motorized trails, or \$87,489 for education projects.

## Program Information

---

### Introduction

#### History and Purpose

The Recreational Trails Program (RTP) is a federal grant program authorized by Congress for the purpose of providing states, local governments, and private sector organizations with funds to acquire lands and develop and/or improve trail and trail-related resources.

#### Allocation of Funds for the 2016 Funding Cycle

The RTP funds are appropriated by Congress to the U. S. Department of Transportation, Federal Highway Administration (FHWA), and FHWA allocates the funds through state agencies as a grants program to sub-grantees. Alabama's allocation to sub-grantees in the 2016 funding cycle will be approximately \$1,609,000.

#### Division of Available Funds

The maximum grant amount by trail type is \$35,000 for non-motorized, single-use trails; \$100,000 for non-motorized, diverse-use trails; \$524,936 for motorized trails, or \$87,489 for education.

Thirty percent of Alabama's RTP funds must be used for motorized trail uses, 30 percent for non-motorized trail uses, and 40 percent for diverse trail uses. Diverse motorized projects (such as ATV and motorcycle) or diverse non-motorized projects (such as pedestrian and equestrian) may satisfy two of these categories at the same time. The State encourages applicants to consider projects that benefit both motorized and non-motorized users, such as common trailhead facilities.

### **Eligible Applicants**

Eligible applicants include incorporated municipalities, counties, legally constituted recreation authorities and commissions, and private sector organizations that can demonstrate an ability to adequately manage Federal grant funds. **No application will be reviewed from an applicant not currently registered in sam.gov under its own name and Data Universal Numbering System (DUNS) number.**

## Applications

### **Pre-applications**

The Alabama State Comprehensive Outdoor Recreation Plan 2013-2018 is the guiding document for funding projects from the RTP. This document is available on the Alabama Department of Economic and Community Affairs' (ADECA) website at [www.adeca.alabama.gov](http://www.adeca.alabama.gov). Statewide issues were gathered and new criterion were developed to evaluate projects. These criterion make up the pre-application. City, county, or private sector applicants may submit only one application for its highest priority outdoor recreation project. State agencies may submit multiple applications. Funds will be allocated to the highest-ranking projects based on scores derived from the evaluation criterion.

Applicants are required to adhere to the grant ceilings listed.

### **Formal Applications**

Applicants receiving the highest-ranking scores on their pre-applications will be asked to submit formal applications. A formal application will be mailed and the Recreation and Conservation Programs staff will be available to answer any questions. Note: An environmental review and/or assessment will be required for all projects selected to proceed in the formal application process.

## Target Timeline for the 2016 Funding Cycle

### **February 2016**

Funding cycle for 2016 RTP grants and Application Workshop is announced to all municipalities, counties, regional commissions, and grant administrators via e-mail and/or direct mail and website announcement.

### **May 3, 2016**

Pre-applications (1 original and 1 digital copy (we will not accept e-mailed copies)) are due to ADECA.

**Each pre-application must include:**

- A cover letter on entity letterhead.
- A signed Pre-application Form to include a response to each of the evaluation criterion
- A resolution adopted by the legal entity of the applicant authorizing the application and committing all matching funds required to complete the proposed project
- A narrative description of the proposed project
- Estimate of cost
- Preliminary site plan
- Plat and/or legal description of the property proposed for purchase and/or development
- Location map
- Verification of sam.gov registration

**May 2016**

Recreation and Conservation Programs staff and the Alabama Recreational Trails Advisory Board review pre-applications for priority rankings based on evaluation criterion, make recommendations for funding to the ADECA Director, complete site inspections, invite the respective local applicants receiving the highest-ranking scores to submit formal applications, and forward copies of the selected pre-applications to the FHWA.

**TBA**

Formal applications mailed to applicants.

**TBA**

Formal applications are due to ADECA. Recreation and Conservation Programs staff will coordinate and correspond as appropriate with each successful applicant to determine if additional documents are needed to complete the formal application process.

**TBA**

Official notification of award sent to successful applicants.

## Minimum Requirements

These are requirements that an applicant must meet in order to be considered for a RTP grant. There are no points attached to these requirements. Only one of two situations may occur: (1) Yes, the applicant meets all minimum requirements and is therefore eligible for consideration of funding based on how the proposed project scores under the evaluation criterion; or (2) No, the applicant does not meet the minimum requirements and is therefore ineligible for funding under the RTP.

Any questions concerning the minimum requirements should be addressed to the Recreation and Conservation Programs staff.

**Equal Opportunity:**

Applicants must comply with Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973, as amended; the Age Discrimination Act of 1975; the Americans With Disabilities Act of 1990, as amended; and all other State and Federal laws and regulations on nondiscrimination. This means that no person shall be discriminated against on the basis of race, color, sex, national origin, age or disability for recreation programs and facilities sponsored by applicants.

### **Legally Constituted Entity**

The applicant must be a legally constituted entity. This includes a municipality, county or a legally constituted recreation board, commission or authority with legislative sanction, or private sector corporation. All applicants must be currently registered in sam.gov with their own DUNS number.

### **State and Federal Laws / Regulations**

Applicants must comply with existing laws and regulations for receiving and expending State and Federal grant money including, but not limited to, public notices, bidding and purchasing requirements, Uniform Relocation Act, Americans with Disabilities Act and Architectural Barriers Act Accessibility Guidelines (ADAAG), Energy Standards, laws and regulations regarding Historic Preservation and archaeological concerns, National Environmental Policies Act, and related environmental rules and regulations. Applicants must not have been debarred, suspended, or otherwise ruled ineligible to participate in Federal programs by any Federal department or agency.

Important note: An environmental review and/or assessment will be required for all projects selected to proceed in the formal application process.

### **Operation and Maintenance**

Applicants must have a satisfactory record of accomplishment for operation and maintenance of public recreation areas and facilities or must have a formal written agreement with an entity with a satisfactory record of accomplishment for operation and maintenance of public recreation areas and facilities in order to apply.

### **Grants Administration**

Applicants must have a satisfactory record of administering Federal grant funds or must have a formal written agreement with an entity with a satisfactory record of administering Federal grant funds. Grant administration professionals may be acceptable substitutes for some institutional capacity upon approval from ADECA.

### **Twenty Percent Match**

Applicants must document the availability of the required minimum twenty percent (20%) match for each application. This requires that each applicant submit a resolution passed by its governing authority that, if a grant were awarded, the required match would be forthcoming. Applicants should be advised that this is a reimbursement program. Funds must be available to expend. Once expenditures are made, reimbursements can be requested. The reimbursement process can take up to 90 days.

### **User Fees**

Applicants must agree that any and all user fees, either resulting from this application or as part of the applicant's system of public parks and recreation areas, cannot be so large as to be exclusionary.

**Prospective applicants are not eligible to apply if:**

- Entity has an open Land and Water Conservation Fund (LWCF) or RTP grant as of May 3, 2016.
- Entity has unresolved compliance issues from a previous LWCF or RTP grant.
- Entity did not respond in writing to a LWCF or RTP inspection report that contained deficiencies.
- Entity has not completed and received approval of a Corrective Action Plan for previous compliance issues.

## Submission Instructions

Please submit an original and a digital copy (an emailed copy will not be accepted) of your application. Be sure each application includes:

- A cover letter on entity letterhead
- A signed Pre-application Form to include a response to each of the evaluation criterion
- A resolution adopted by the legal entity of the applicant authorizing the application and committing all matching funds required to complete the proposed project
- A narrative description of the proposed project
- Estimate of cost
- Preliminary site plan
- Plat and/or legal description of the property proposed for purchase and/or development
- Location map
- Verification of sam.gov registration

Please submit your application with a single binder clip. Please do not staple, spiral bind, or book bind your application. Please submit applications to:

**By Mail**

Alabama Department of Economic and Community Affairs  
Community and Economic Development Programs Division

RESOLUTION # \_\_\_\_\_

---

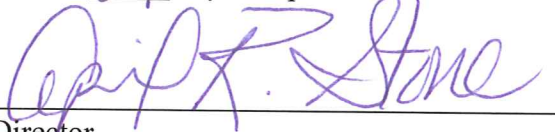

**WHEREAS**, the South Shelby Chamber of Commerce intends to apply to the State of Alabama for Recreational Trails Program Funds to construct a multipurpose trail; and

**WHEREAS**, said programs are limited to funding a maximum of eighty percent (80%) of the proposed project cost up to a maximum grant amount of \$100,000 to construct the trail.

**NOW, THEREFORE, BE IT HEREBY RESOLVED**, that the City of Columbiana will commit all matching funds for the proposed Recreational Trails Fund Project on behalf of the South Shelby Chamber of Commerce, and

**BE IT FURTHER RESOLVED**, that in the event the grant is awarded, the South Shelby Chamber of Commerce understands that it will sign assurances complying with all applicable Federal and State laws, rules and regulations.

**ADOPTED AND APPROVED** by the South Shelby Chamber of Commerce, on this the 29 day of April 2016.
